

Outlying Islands (Faber Plays)

Poetic, intense and gripping, *Outlying Islands* is a glimpse of an innocence, a way of seeing and a way of being young that is about to be destroyed forever. In 1939, on the eve of the Second World War, two young Cambridge ornithologists arrive on a remote, uninhabited Scottish island, sent by the government to survey the islands birds. With them on the island are Kirk, the authoritarian leaseholder, and his niece Ellen, a young woman in love with the stars of silent comedy. Left alone on a scrap of land surrounded by the vast Atlantic, they observe each other. *Outlying Islands* was premiered at the Traverse Theatre, Edinburgh in July 2002 and transferred to the Royal Court, London in Autumn 2002.
